Welcome Message

Dear Friends & Colleagues,

It gives us great pleasure to invite you to the combined meeting of 7th iteration of ‘**11 Days of Facial Plastic Surgery**’ and ‘**11th International Conference of Pan Asia Academy of Facial Plastic and Reconstructive Surgery (PAAFPRS)**’.

PAAFPRS is an established and influential society dedicated to promoting the practice and teaching of Facial Plastic Surgery in Asia. It is a member society of International Federation of Facial Plastic Surgery Societies (IFFPSS).

The event will feature lectures, panel discussions, instructional sessions and workshops, the scientific program for which has been planned to deliver a structured and systematic instruction covering a comprehensive range of topics in most aspects of Facial Plastic and Reconstructive Surgery.

The three courses during ‘11 Days of Facial Plastic Surgery’ are being held jointly under the auspices of PAAFPRS, European Academy of Facial Plastic Surgery (EAFPS), Facial Reconstructive and Cosmetic Surgery (FRCSI) and Society of Otolaryngology – Head And Neck Surgery Singapore (SOHNS). The courses offer an exceptional hands-on opportunity for Otolaryngology, Plastic Surgery, Ophthalmology and Maxillofacial Surgery Residents, Fellows and Consultants alike to expand their knowledge and surgical skills in this fascinating area of surgical practice. The scientific program for the upcoming courses has been enhanced further by incorporating feedback from participants and faculty from previous courses.

The courses offer 8 days of dissection on high quality fresh frozen cadavers in a well-equipped surgical skills laboratory. State of the art surgical instruments, endoscopes, monitors and implants will be made available to the delegates courtesy of our sponsors Storz and Johnson and Johnson. Participants in the previous courses have been very appreciative of the ample time available for dissection under close supervision of our learned international and national faculty, which allowed them to learn a wide variety of surgical procedures at a relaxed pace. This year the program has been redesigned to allow even more time for surgical dissection.

The forthcoming Facial Fracture and Soft Tissue Reconstruction Course has also been revamped to include a section on Orthognathic surgery.

The participants will benefit from the wealth of experience offered by our outstanding international, regional and national faculty.

Singapore is a city buzzing with excitement and has many historical and modern architectural landmarks. It is a paradise for gourmands and offers a wealth of experiences that will help you to have a memorable visit in this garden city. Travel to Singapore is easy as it is well connected to major airports in the world.

We look forward to seeing you at 11 Days of Facial Plastic Surgery 2023 and the 11th PAAFPRS Annual Conference in Singapore!

Dr Sandeep Uppal
PhD, FRCS (ORL-HNS), FAMS (ORL)
Conference Chairman and Course Director
Head of Department and Senior Consultant
Head of Facial Plastic,
Reconstructive and Aesthetic Service
